Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Wawa-Dubreuilville area is suffering economic hardship; construction of this road link will provide access to the gold resource in Finan Township and help to increase employment levels in the area.
- B. Significant negative environmental effects are not expected to occur as a result of this project.
- C. There is an existing approved planning process in place (MNR's Class EA for "Access Roads to MNR Facilities") which is a suitable planning process for this project.

This exemption is subject to the following terms and conditions:

1. The Ministry of Northern Development and Mines shall adapt the planning procedures set out in the Ministry of Natural Resources' Class EA for "Access Roads to MNR Facilities" as approved, during the development of the Goudreau-Lochalsh road.
2. The Ministry of Northern Development and Mines shall consult the public and Government agencies during various stages of planning the project as stated in the above noted Class EA.
3. The public and Government agencies shall have a minimum of thirty days to review the project proposal and to submit comments and concerns to the Ministry of Northern Development and Mines.

5. Following notification of the Ministry of Northern Development and Mines' intent to proceed, the public and government agencies shall have fifteen days to submit any comments and/or concerns to the Ministry of Northern Development and Mines. In turn, the Ministry of Northern Development and Mines shall send copies of those comments and/or concerns and how they have been

addressed to the Director of the Environmental Assessment Branch.

6. Prior to carrying out any construction activity pursuant to this Exemption Order an environmental status report outlining the planning, design and construction of work proposed to be undertaken will be completed. The environmental status report shall be completed to outline the environmental effects of planning, design and construction, and the proposed mitigation of these effects. The environmental status report shall be filed at least thirty days prior to the commencement of construction by the Minister of Northern Development and Mines with the Director of the Environmental Assessment Branch of the Ministry of the Environment for filing with the public records kept under section 31 of the Act by the Branch at the Ministry's main office. This environmental status report will clearly state the proposed start and approximate completion dates.
7. The Ministry of Northern Development and Mines shall develop and submit to the Minister of the Environment a Class Environmental Assessment for access roads to resource areas by May 1, 1989.
8. This exemption order will expire May 1, 1989. If construction has not been commenced by that date, the undertaking will not be exempt under this Exemption Order. O. Reg. 284/88.

3. Sections 3, 4, 5 and 6 of the said Regulation are revoked and the following substituted therefor:

3. For the purposes of clause 3 (5) (j) of the Act, the operator's prescribed deduction for a taxation year in respect of contributions to a registered pension fund or plan accepted for registration by the Minister of National Revenue is the amount of contributions that may be deducted under paragraph 20 (1) (q) or (s) of the *Income Tax Act* (Canada) for the taxation year in respect of services rendered by employees of the operator that are reasonably related to mining operations in Ontario or processing of output in Canada, to the extent that such contributions were not deducted in respect of a previous taxation year. O. Reg. 310/88, s. 3, *part*.

4.—(1) For the purposes of clause 3 (6) (c) of the Act, a mine project may be designated by the Minister as a new mine where,

(a) the mine is separate and distinct geologically and has had no common workings with any other mine during the five calendar years before the calendar year in which the Minister makes the designation; or

(b) the mine is a re-opened mine that had been closed down for a continuous period of at least sixty months before the month in which the Minister makes the designation.

(2) For the purposes of clause 3 (6) (c) of the Act, a mine project may be designated by the Minister as a major expansion of an existing mine where investment in an existing mine results in an increase in the daily rate of production of mineral substances from the mine by at least 30 per cent over the average daily rate of production of the mine during each of the five calendar years ending immediately before the calendar year in which the first outlay was made to expand the mine.

(3) For the purposes of clause 3 (6) (c) of the Act,

(a) the date of completion of a new mine is the first day of the month when the operator of the mine first becomes entitled to receive proceeds from the output of the mine; and

(b) the date of completion of a major expansion of an existing mine is the first day that the rate of production of mineral substances from the expanded mine reaches the level of production described in subsection (2).

(4) For the purposes of subclause 3 (6) (c) (i) of the Act, the profits from a mine that is designated as a new mine or a major expansion of an existing mine shall be determined under subsection 3 (5) of the Act as if the new mine or the major expansion of the existing mine is the only mine in which the operator has an interest. O. Reg. 310/88, s. 3, *part*.

5.—(1) For the purposes of clause 1 (1) (j) of the Act, the amount of the operator's proceeds from the output of an iron ore mine where iron ore is not sold as ore shall be the sum of,

(a) the amount determined on the basis of the price established in Skilling's Mining Review as,

(i) the Pickands Mather and Co., Pointe Noire, Quebec, iron ore pellet price plus transportation costs from Pointe Noire, Quebec to the processing plant where the iron ore pellets are processed, less transportation costs from the mine to the processing plant, or

(ii) the lower Great Lakes Port price less transportation costs from the mine; and

(b) all amounts deducted by the operator under subsection 3 (5) of the Act that are reasonably attributable to the processing of the iron ore beyond the stage of processing to which the price in clause (a) used by the operator applies.

(2) For the purposes of subsection (1), the price established in Skilling's Mining Review shall be the price in the most recent issue published on or before the date that the operator commences processing the output beyond the stage to which the price in clause (1) (a) used by the operator applies.

(3) For the purposes of clause 1 (1) (j) of the Act, the amount of the operator's proceeds from non-metallic mineral substances that are not sold in their raw state shall be,

(a) the fair market value of the non-metallic mineral substances at the pit's mouth; and

(b) the aggregate of all amounts deducted under subsection 3 (5) of the Act that are reasonably attributable to the processing of the non-metallic mineral substances or to any other activity carried out in relation to output beyond the pit's mouth. O. Reg. 310/88, s. 3, *part*.

4. Section 7 of the said Regulation, as amended by section 1 of Ontario Regulation 782/83, is revoked and the following substituted therefor:

7.—(1) For the purposes of the Act, "depreciable property" means mining assets, processing assets and assets that are used for transporting processed mineral substances to market from the point at which processing is completed.

(2) Subject to subsection (4), where, by one or more transactions between persons not dealing at arm's length, there is a disposition of depreciable property by an operator to another operator for an amount in excess of the capital cost to the transferor,

(a) the transferor shall be deemed to have disposed of the depreciable property for pro-

ceeds of disposition equal to the capital cost to the transferor; and

(b) the transferee shall be deemed to have acquired the depreciable property at a capital cost equal to the capital cost to the transferor.

(3) Subject to subsection (4), where, by one or more transactions between persons not dealing at arm's length, there is a disposition of depreciable property by an operator to another operator for no proceeds or for proceeds less than or equal to the capital cost of the depreciable property to the transferor, the amount of the proceeds of disposition shall be the amount of the proceeds of disposition to the transferor and the capital cost of the depreciable property to the transferee.

(4) An operator shall be deemed to have received proceeds of disposition equal to the undepreciated capital cost of the depreciable property where,

(a) there is a disposition of all or substantially all of the depreciable property of a mine owned by an operator to a corporation resident in Canada with which the operator does not deal at arm's length;

(b) the Minister is satisfied that the disposition of the depreciable property is not intended to reduce the amount of tax otherwise payable under the Act; and

(c) the only consideration received by the operator on the disposition is shares of the corporation or shares of the corporation and the assumption by the corporation of liabilities owed by the operator.

(5) Where subsection (4) applies with respect to the disposition of depreciable property,

(a) the capital cost of the depreciable property to the corporation shall be deemed to be the amount that was the capital cost thereof to the operator; and

(b) the excess of the capital cost over the undepreciated capital cost shall be deemed to have been allowed previously to the corporation as an allowance for depreciation under subsection 3 (6) of the Act. O. Reg. 310/88, s. 4.

5.—(1) Subsections 8 (1), (2), (4), (5) and (6) of the said Regulation are revoked and the following substituted therefor:

(1) Subject to subsections (2) and (5), the following processing allowance is prescribed for the purposes of clause 3 (5) (k) of the Act:

1. Where the output has been processed in a concentrator situated in Canada and owned by the operator at the end of the taxation year and operated by the operator, but has not

been processed in a smelter or refinery owned and operated by the operator, the processing allowance shall be 8 per cent of the capital cost to the operator of the processing assets used in processing the output.

2. Where the output has been processed in a concentrator and a smelter both of which are situated in Canada and owned by the operator at the end of the taxation year and operated by the operator, but has not been processed in a refinery owned and operated by the operator, the processing allowance shall be 12 per cent of the capital cost to the operator of the processing assets used in processing the output.

3. Where the output has been processed in a concentrator, a smelter and a refinery, all of which are situated in Canada and all of which are owned by the operator at the end of the taxation year and operated by the operator, the processing allowance shall be 16 per cent of the capital cost to the operator of the processing assets used in processing the output.

4. In lieu of the processing allowance under paragraph 3, where the output has been processed in,

- i. a concentrator, a smelter and a refinery, or
- ii. a concentrator, a smelter, a refinery and a semi-fabricating plant,

all of which are situated in Northern Ontario and all of which are owned by the operator at the end of the taxation year and operated by the operator and 80 per cent or more of the value of the input to the semi-fabricating plant, if applicable, originates from a mine situated in Ontario that is owned by the operator, the processing allowance shall be 20 per cent of the capital cost of the processing assets used in processing the output.

(2) Where at any stage prior to the final stage of processing in Canada undertaken by the operator, a portion of the output of the processing plant located in Canada leaves a stage of processing without proceeding to the next stage of processing in Canada, the processing allowance at each stage shall be reduced by the proportion that the value of the output that has left the stage of processing bears to the total value of the output of the processing plant at that stage. O. Reg. 310/88, s. 5 (1), *part*.

(4) An operator's processing allowance calculated under this section with respect to processing assets under construction and not yet in use shall be determined on the basis of a progress report to support the

claim, showing the work done and the moneys expended on the processing assets during the taxation year.

(5) An operator who,

(a) does not own processing assets and sells output that has been processed by another person on behalf of the operator is entitled in any taxation year to claim a processing allowance under clause 3 (5) (k) of the Act equal to 15 per cent of the operator's profit otherwise determined under subsection 3 (5) of the Act before deduction of the processing allowance; and

(b) owns processing assets and sells output in a taxation year that has been processed shall claim a processing allowance under clause 3 (5) (k) of the Act in determining profit for the taxation year of not less than 15 per cent and not more than 65 per cent of the profit otherwise determined under subsection 3 (5) of the Act before deduction of the processing allowance. O. Reg. 310/88, s. 5 (1), *part*.

(2) Section 8 of the said Regulation is amended by adding thereto the following subsections:

(8) Where 80 per cent or more of the value of the input to a processing plant located in Ontario and owned and operated by the operator is from mineral substances mined in Ontario or outside Canada, whether from the operator's mines or not, the operator is entitled to a processing allowance determined under this section with respect to the processing plant.

(9) Where less than 80 per cent of the value of the input to a processing plant located in Ontario and owned and operated by the operator is from mineral substances mined in Ontario or outside Canada, whether from the operator's mines or not, the processing allowance determined under subsection (1) with respect to the processing plant shall be reduced by the proportion that the value of the input of mineral substances mined in Canada outside Ontario bears to the total value of the input of mineral substances to the processing plant.

(10) Where a processing plant owned and operated by the operator is located in Canada and outside Ontario, the operator's processing allowance as determined under subsection (1) with respect to the processing plant shall be reduced by the proportion that the aggregate of the value of the input of,

(a) mineral substances from Ontario mines, other than mineral substances from the operator's Ontario mines; and

(b) mineral substances from mines located outside Ontario whether from the operator's mines or not,

bears to the value of the total input of mineral substances to the processing plant. O. Reg. 310/88, s. 5 (2).

6. Section 9 of the said Regulation is revoked and the following substituted therefor:

9.—(1) For the purposes of subsection 9 (3) of the Act, the amount of the contribution to the fund or plan for a prior taxation year ending before the taxation year during which the withdrawal is made shall be determined by calculating the amount that is the lesser of,

- (a) the amount of all contributions previously allowed as deductions in the calculation of the profit under the Act of the operator and any predecessor thereof for the prior taxation year; and
- (b) the amount, if any, by which the amount withdrawn exceeds the aggregate of,
 - (i) the contributions of the operator and any predecessor thereof to the fund or plan for taxation years commencing after the end of the prior taxation year and ending before the taxation year during which the withdrawal is made that were allowed as deductions in the calculation of the profit under the Act of the operator and any predecessor thereof for those taxation years, and
 - (ii) all earnings from the contributions referred to in clause (a) and subclause (i), and from any property substituted therefor, for the period when the contributions and substituted property formed part of the fund or plan.

(2) For the purposes of subsection (1), the amount of the contribution of the operator and any predecessor thereof to the fund or plan for a taxation year commencing after the end of the prior taxation year and ending before the taxation year during which the withdrawal was made shall include, for the purposes of subclause (1) (b) (i), the portion, if any, of the contribution that has been disallowed as a deduction in the calculation of the profit under subsection 9 (3) of the Act of the operator and any predecessor thereof. O. Reg. 310/88, s. 6.

7. Section 10 of the said Regulation is revoked and the following substituted therefor:

10.—(1) Except as provided in subsections (4), (5) and (6), the rate of interest payable per annum under section 8 of the Act shall be the mean rate rounded to the nearest whole percentage point of the lowest interest rates charged to their most credit worthy borrowers for prime business loans by the Royal Bank of Canada, the Bank of Nova Scotia, the Canadian

(2) The rate of interest under section 8 of the Act shall be reviewed semi-annually and adjusted effective the 1st day of April and the 1st day of October in each year, and shall remain in force until the next adjustment date.

(3) The Minister shall cause the rate of interest to be printed in *The Ontario Gazette* published next after the coming into force of the adjusted rate.

(4) For the purposes of subsection 8 (2) of the Act, the rate of interest for the period of calculation referred to therein is 12 per cent per annum in respect of that portion of the period that is before the 1st day of April, 1988.

(5) For the purposes of subsection 8 (6) of the Act, the rate of interest for the period of calculation referred to therein is 5 per cent per annum in respect of that portion of the period that is before the 1st day of April, 1988.

(6) For the purposes of subsection 8 (7) of the Act, the rate of interest for the period of calculation referred to therein is 8 per cent per annum in respect of that portion of the period that is before the 1st day of April, 1988.

(7) Where the calculation of interest is made under the Act with respect to any period ending after March, 1988, the rate of interest payable with respect to each portion of the period of calculation after that date shall be the rate of interest in effect for that portion of the period as determined under subsection (1). Limited Exemption—Construction of a Hydro-Electric Generating Facility, Transmission Line and Ancillary Facilities on the Kaministiquia River—KAM-1.

Made—May 19th, 1988.

Approved—May 19th, 1988.

Filed—May 26th, 1988.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

LIMITED EXEMPTION—CONSTRUCTION OF A HYDRO-ELECTRIC GENERATING FACILITY, TRANSMISSION LINE AND ANCILLARY FACILITIES ON THE KAMINISTQUIA RIVER—KAM-1

Whereas I have received requests that the proposed undertaking consisting of:

the planning, designing, construction, operating and maintaining of a new hydro-electric generating facility on the Kaministiquia River near the City of Thunder Bay at a location between Ontario Hydro's Silver Falls Generating Station and Kakabeka Falls Generating Station and any transmission line and ancillary facilities to connect the station to works owned by Ontario Hydro,

be made subject to the *Environmental Assessment Act* (the "Act") and referred the matter to the Environmental Assessment Advisory Committee (EAAC) for advice;

Whereas the EAAC recommended that the undertaking be made subject to the Act in a limited way and therefore a designating regulation, Ontario Regulation 335/88, has been made and I have determined that in order to carry out the recommendation of the EAAC the undertaking should be made partially exempt from the application of matters provided for in subsection 5 (3) of the Act pursuant to section 29 of the Act, namely that:

The Environmental Assessment for the undertaking and any hearing arising out of it, in the case of alternatives, be restricted to the consideration of hydro-electric generating alternatives at the sites identified as Kaministiquia 1, 2 and 3 on the Kaministiquia River and other sites in the Kaministiquia River drainage basin with an average capacity over 1 megawatt, so that it will be unnecessary to consider other types of alternatives to the undertaking and other locations.

Having been advised that if the undertaking is subject to the full application of the Act the following injury, damage or interference with the persons and property indicated will occur:

- A. the proponent and other persons participating in the environmental assessment process will be put to undue delay.

I have weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the full application of the Act.

I am of the opinion that it is in the public interest to order and I so order that, since the limited environ-

mental assessment would deal with the major potential adverse impacts of the undertaking on fisheries, tourism and recreation and the effects of flooding lands, the undertaking is exempt as set out above.
O. Reg. 336/88.

JAMES BRADLEY
Minister of the Environment

Dated this 19th day of May, 1988.

24/88

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 337/88.

Exemption—Ministry of Government
Services—MGS-83.

Made—May 19th, 1988.

Approved—May 19th, 1988.

Filed—May 26th, 1988.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-83

Having received a request from the Minister of Government Services that an undertaking, namely:

The activities involved in acquiring property and designing, constructing, operating and maintaining facilities for the Ministry of Correctional Services for a treatment centre for correctional inmates from northern Ontario who have treatable psychological and behavioural disorders, at a site on Great Northern Road described as Part of Lot 1, Plan H-731, in the City of Sault Ste. Marie, Algoma, currently owned by The Board of Management of F.J. Davey Home for the Aged,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of Government Services that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Government Services will be interfered with by having to carry out an environmental assessment on a project with minimal and mitigable impacts; and
- B. The Ministry of Correctional Services will be interfered with and damaged in that the levels of efficiency and service are diminished by the lack of existing treatment facilities in northern Ontario.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proposed use is permitted under the Official Plan and zoning by-laws (Institutional);
- B. The site is self-contained and will not over-tax the local services;
- C. The City of Sault Ste. Marie prefers this site over alternative sites;
- D. The site has low archeological potential and no unique features, and no heritage studies are required by MCC;
- E. The site is adjacent to similar-size institutional uses;
- F. Public meetings have been held to explain and hear representations on the undertaking; and
- G. All necessary actions will be taken to ensure security at the facility and to minimize visual impact through landscaping.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. To ensure that there be no future expansion and to satisfy neighbourhood concerns, a one-half metre strip of land around the perimeter of the site will be deeded to the City of Sault Ste. Marie.

4. Construction must commence prior to December 31, 1989 in order for this exemption to apply. O. Reg. 337/88.

Effluent Monitoring—Petroleum Refining
Sector.

Made—June 1st, 1988.

Filed—June 7th, 1988.

REGULATION MADE UNDER THE
ENVIRONMENTAL PROTECTION ACTEFFLUENT MONITORING—PETROLEUM
REFINING SECTOR

1.—(1) In this Regulation,

“audit sample” means a set of samples collected by a provincial officer from a sampling point of a direct discharger;

“General Effluent Monitoring Regulation” means Ontario Regulation 358/88;

“landfarm leachate” means untreated waste disposal site effluent collected from a landfarm, landspreading site or soil biodegradation area;

“once-through cooling water sampling point” includes a point in a once-through cooling water effluent stream situated before the place of discharge to a

surface watercourse and after the addition of boiler feedwater treatment effluent, cooling tower blow-down or clean surface runoff;

“process change” means any change in equipment, production process or treatment process;

“travelling blank sample” means a quality control sample of uncontaminated water that accompanies a set of sample containers from the laboratory to a sampling point and that is opened, preserved, resealed and returned to the laboratory with the set of samples for analysis;

“travelling spiked blank sample” means a quality control sample of uncontaminated water to which a certain recorded quantity of standard solution and appropriate preservative is added in the laboratory a maximum of twenty-four hours before accompanying a set of sample containers from the laboratory to a sampling point and back, unopened, to the laboratory for analysis with the set of samples.

General Information

Under the Employee Share Ownership Plan program, an employee group certified by the Minister may be eligible for a grant to offset up to one-half of its costs in negotiating, evaluating and implementing an ESOP with the employer.

Employee Group

A trade union representing employees of the corporation, or an existing employee association, may apply for certification as an employee group for ESOP purposes. If there is no existing organization that is broadly representative of the company's employees, interested employees may come together to form a group and apply for certification. Only one employee group will be certified per company.

Employee Group Grant

The grant to an employee group is equal to one-half of the group's eligible costs, to a maximum grant amount of \$5,000.

For purposes of calculating an employee group grant, eligible costs are those which relate directly to the negotiation, evaluation and implementation of an employee share ownership plan and which are incurred with individuals or firms operating at arm's length with the corporation, employees and the employee group.

A grant is payable only if an ESOP is actually registered. If no application is made for registration of a plan, or if registration is refused, no grant is payable.

An Application for Employee Group Grant must be filed with the Ministry within one year of the date of issuance to the corporation of a Certificate of Eligibility.

Application Information

Group Representative(s): A group representative is someone chosen by the members of the employee group to act on their behalf on ESOP matters.

Authorization of Representative(s) and Request for Group Certification: All individuals signing in this area of the form must be employees of the corporation.

Renseignements généraux

En vertu du programme d'actionnariat des employés, un groupe d'employés accrédité par le ministre peut recevoir une subvention dont le montant peut atteindre la moitié du coût de la négociation, de l'évaluation et de la mise en oeuvre d'un régime d'actionnariat en collaboration avec l'employeur.

Groupe d'employés

Un syndicat qui représente les employés de la compagnie, ou une association d'employés déjà en place, peut demander d'être accrédité comme groupe d'employés aux fins du programme d'actionnariat des employés. S'il n'existe aucun groupement pour représenter la plupart des employés, les employés intéressés peuvent former un groupe et faire une demande d'accréditation. Un seul groupe d'employés peut être accrédité dans une compagnie.

Subvention du groupe d'employés

La subvention versée à un groupe d'employés équivaut à la moitié des frais admissibles du groupe, jusqu'à concurrence de 5 000 \$.

Aux fins du calcul de la subvention d'un groupe d'employés, les frais admissibles sont les frais se rapportant directement à la négociation, à l'évaluation et à la mise en oeuvre d'un régime d'actionnariat des employés et engagés auprès de personnes ou d'entreprises sans lien de dépendance avec la compagnie, les employés ou le groupe d'employés.

Une subvention peut être versée seulement si le régime d'actionnariat des employés est effectivement enregistré. Aucune subvention n'est versée pour les régimes pour lesquels aucune demande d'enregistrement n'a été faite ou dont l'enregistrement a été refusé.

Une Demande de subvention (groupe d'employés) doit être déposée auprès du ministère au cours de l'année qui suit la date de délivrance d'un Certificat d'admissibilité à la compagnie.

Renseignements sur la demande

Représentant(s) du groupe: Le ou les représentants du groupe doivent être choisis par les membres du groupe d'employés pour intervenir en leur nom sur les questions relatives au régime d'actionnariat des employés.

Autorisation du ou des représentants et demande d'accréditation du groupe: Toutes les personnes qui signent cette section doivent être employées par la compagnie.

Renseignements: Si vous avez besoin d'aide pour remplir cette demande, veuillez téléphoner À FRAIS VIRÉS à notre bureau et demander un spécialiste du programme d'actionnariat des employés.

Les renseignements fournis dans la présente demande serviront à déterminer si l'employé a droit à une subvention en vertu du programme ontarien d'actionnariat des employés.

Renseignements sur la demande

Actions déjà détenues : Si une personne a déjà détenu des actions ordinaires de la compagnie de son employeur et qu'elle les a réalisées au cours des six mois précédant l'achat des actions d'employés, sa subvention est calculée selon le prix d'achat de ces dernières moins le produit de la vente des actions ordinaires.

Un calcul similaire doit être fait si vous avez déjà détenu ou réalisé des actions d'employés de la compagnie, à moins que ces actions aient été vendues au cours des deux années d'entiercement et que la subvention reçue ait été remboursée au moment de la vente.

Attestation : Les personnes qui sont des actionnaires importants de la compagnie ou qui ont droit, en achetant des actions, à des encouragements en vertu d'un autre programme ontarien ou fédéral ne peuvent recevoir de subvention en vertu de ce programme.

Délai : Le ministère doit recevoir la demande au cours des trois années suivant l'émission des actions d'employés faisant l'objet de la demande.

Renseignements : Si vous avez besoin de renseignements ou d'aide pour remplir cette demande, veuillez téléphoner À FRAIS VIRE à notre bureau et demander un agent de l'application du programme d'actionnariat des employés.

Statement Information

During the two-year escrow period, all proceeds receivable by an eligible employee on the sale, transfer or redemption of employee shares must be paid to the administrator.

Except in the case of an involuntary disposition, the administrator is required to withhold from the proceeds the amount of the employee grant, or an amount determined by a prescribed formula (see Transaction Details below) and remit such amount to the Treasurer of Ontario.

Reason for Share Disposition

A) Involuntary: If the share disposition is deemed to be involuntary, indicate the reason. Where the sale, transfer or redemption of the shares is a result of the shareholder's death, provide the date of death.

B) Voluntary: A sale, transfer or redemption of shares that does not qualify as an involuntary disposition under the Act.

Partial Sale Only: If only a portion of the shares represented by the original share certificate has been sold, and the administrator is holding a new certificate issued by the corporation in the name of the employee and representing the balance of the shares, provide the number of the new share certificate.

Les renseignements fournis dans la présente seront utilisés pour vérifier la répartition du produit de la vente des actions de l'employé pendant la période d'entiercement en vertu du programme ontarien d'actionnariat des employés.

Renseignements sur la déclaration

Au cours des deux années d'entiercement, tout le produit qu'un employé admissible peut recevoir sur la vente, la cession ou le rachat d'actions doit être versé à l'administrateur.

Sauf en cas d'aliénation involontaire, l'administrateur doit retenir la partie du produit correspondant au montant de la subvention de l'employé ou un montant déterminé par une formule prescrite (voir Détails de la transaction ci-dessous) et le remettre au trésorier de l'Ontario.

Raison de l'aliénation des actions

A) Involontaire: Si l'aliénation des actions est involontaire, en donner la raison. Si la vente, la cession ou le rachat des actions est attribuable au décès de l'actionnaire, inscrire la date de son décès.

B) Volontaire: Une vente, une cession ou un rachat d'action qui n'est pas considéré comme involontaire en vertu de la loi.

Détails sur la transaction:

Au trésorier de l'Ontario: Si les actions sont vendues pour un montant égal ou supérieur à leur coût d'acquisition, le montant intégral de la subvention de l'employé se rapportant à ces actions, est retenu. Si les actions sont vendues à perte, un montant équivalant à 15% du prix de vente, jusqu'à concurrence du montant de la subvention de l'employé se rapportant à ces actions, est retenu. Un chèque de ce montant établi à l'ordre du trésorier de l'Ontario doit être envoyé au ministère du Revenu avec cette déclaration.

Au propriétaire/à l'exécuteur: Le montant qui a été transmis à l'employé qui vend les actions ou à son exécuteur testamentaire. En cas d'aliénation involontaire, ce montant équivaut au total du produit.

Vente partielle seulement: Si une partie seulement des actions figurant sur le certificat d'actions initial sont vendues, et que l'administrateur a en sa possession un nouveau certificat émis par la compagnie au nom de l'employé pour les actions que l'employé garde, inscrire le numéro du nouveau certificat d'actions.
